June 29, 2016

Dear Health Professional,

Attention: If you are an ER4 Portal subscriber and view Calgary Laboratory Services General Lab and Provincial Lab results on the ER4 Portal:

Effective July 27, 2016, all surgical pathology and Cytopathology reports from Calgary Laboratory Services will be delivered via the ER4 Portal for physicians/health care providers and locations to align with the general laboratory and Provincial Lab results already filing to ER4. As of this date, all hard copy reports or batch faxed charts will be discontinued.

This initiative will include all reports including autopsy and consults.

If after July 27th you find you are receiving duplicate charts (chart for physician and chart for location) and want to prevent this please contact me directly.

Sincerely,

Tracey Lenek
Anatomical Pathology/Cytopathology Manager
Calgary Laboratory Services
403-770-3448
